DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 14, drawn to a semiconductor device with gate in trench or groove, classified in class 257, subclass 330.
 - II. Claims 15 – 28, drawn to a method of making a semiconductor device with gate in trench or groove, classified in class 438, subclass 259.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP §806.05(f)). In the instant case, unpatentability of the Group II invention would not necessarily imply unpatentability of the Group I invention, because the device of the Group I invention could be made by a process materially different from that of the Group II invention. For example, the process of claims 15 and 20 can be materially altered, by making the “second conductivity type region”, respectively “second conductivity type protrusion region” by means of thermal impurity diffusion doping rather than ion implantation.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the

fields of search are not co-extensive and separate examination would be require, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 FR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Johannes P. Mondt, whose telephone number is (703) 306-0531. The examiner can normally be reached on Monday-Friday 8:00 AM-5:30 PM.

The examiner can normally be reached on 8:00 - 18:00.
